INDEPENDENT AUDITOR'S REPORT

Board of Directors Jackson County School District No. 4 Phoenix-Talent, Oregon

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Jackson County School District No. 4, Oregon, (the District) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Jackson County School District No. 4, as of June 30, 2018, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, other postemployment benefits schedules, certain pension schedules, and budgetary comparison schedules as listed in the Table of Contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis, other postemployment benefits schedules and certain pension schedules in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The general fund and special revenue major governmental funds budgetary comparison schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the general fund and special revenue major governmental funds budgetary comparison schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information as listed in the Table of Contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Award, and is also not a required part of the basic financial statements.

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from, and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements, and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2018, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Discoct's internal control over financial reporting and compliance.

Other Reporting Required by the State of Oregon

In accordance with Oregon State Regulations, we have also issued our report dated November 30, 2018, on our consideration of the District's compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes (ORS) as specified in Oregon Administrative Rules 162-10-0000 through 162-10-0320 of the Minimum Standards for Audits of Oregon Municipal Corporations. The purpose of that report is to describe the scope of our testing necessary to address the required provisions of ORS, and not to provide an opinion on compliance with such provisions.

Stewart C. Parmele, CPA, Partner KDP Certified Public Accountants, LLP

Stwart Chamele CPA, Partner

Medford, Oregon November 30, 2018

As management of Jackson County School District No. 4 (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2018. We encourage readers to consider the information presented here.

Financial Highlights

- In the government-wide statements, the liabilities and deferred inflows of resources of the District exceeded its assets and deferred outflows of resources at June 30, 2018 by \$5.43 million (net position).
- The District's net investment in capital assets is \$16.96 million. The District has a net position restricted for scholarships and debt service of \$960 thousand.
- The District's total net position increased by \$1.85 million. In the prior year, the District's total net position decreased by \$171 thousand.
- The District's total expenditures increased from the prior year, \$30.43 million to \$31.60 million. The \$1.17 million expenditure increase, is due primarily to a \$1.11 million increase in bond fees and interest. In addition, District revenues increased from the prior year, \$30.26 to \$33.45 million. The increase in revenues is due primarily to an increase in state school fund support of \$2.34 million, an increase in property tax revenue of \$450 thousand, and an increase of earnings on investments of \$269 thousand.
- The District's governmental funds report combined ending fund balance of \$76.83 million, an increase of \$73.00 million in comparison with the prior year. Approximately 5.0 percent of this total amount, \$3.87 million, is available for spending at the District's discretion.
- At the end of the fiscal year, fund balance for the general fund was \$4.12 million, up from \$1.89 million in the prior year, an increase of \$2.22 million. This increase includes a state school fund support increase from 2016-17 of \$2.36 million. Total fund balance in the General Fund represented about 16.44 percent of total General Fund expenditures, up from 7.62 percent in the prior year.
- The District's current assets increased by \$73 million mainly due to receipt of general obligation bond proceeds.
- The District's total liabilities and deferred inflows increased by \$68.40 million during the 2017-18 fiscal year due to the issuance of \$68 million in general obligation bonds, a decrease in OPEB and pension liabilities of \$1.08 million, and an increase in current liabilities of \$1.12 million of which \$646 thousand is due to an increase of accrued interest.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

Jackson County School District No. 4 (the District), Phoenix-Talent, Oregon, was organized under provisions of Oregon Statutes pursuant to ORS Chapter 332 for the purpose of operating elementary and secondary schools. The District is governed by a separately elected seven-member Board of Education (Board) who approves the administrative officials. The daily functioning of the District is under the supervision of the Superintendent. As required by generally accepted accounting principles, all activities of the District have been included in the basic financial statements.

Overview of the Financial Statements (continued)

Government-wide financial statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements include:

The Statement of Net Position presents information on all of the assets and liabilities of the District at year end. Net position is what remains after the liabilities have been paid or otherwise satisfied. Net position may be further separated into amounts restricted for specific purposes and unrestricted amounts. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the net position of the District changed over the year by tracking revenues, expenses and other transactions that increase or reduce net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

In the government-wide financial statements, the District's activities are shown in one category:

• Governmental activities. Most of the District's basic functions are shown here, such as regular and special education, child nutrition services, transportation, administration, and facilities acquisition and construction. These activities are primarily financed through property taxes, Oregon's State School Fund and other intergovernmental revenues.

The government-wide financial statements can be found on pages 1 and 2 of this report.

Fund financial statements

The *fund financial statements* provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the District funds are governmental funds.

The governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances are reconciled to the government-wide Statements of Net Position and Activities, respectively.

Overview of the Financial Statements (continued)

The District maintains four individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances for the General, Special Programs, Debt Service, and Capital Projects all of which are considered to be major funds. The District does not have any non-major governmental funds.

The basic governmental fund financial statements can be found on pages 3 to 6 of this report. **Notes to the basic financial statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 7 through 35 of this report.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* (RSI). This Management's Discussion and Analysis, is considered required supplementary information. RSI also includes displaying budgetary comparison schedules for the General Fund and all major Special Revenue funds, and certain pension and other postemployment benefits schedules. These RSI can be found on pages 36 to 41 of this report.

Government-wide Financial Analysis

Statement of Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$5.43 million at June 30, 2018. At June 30, 2017, District liabilities and deferred inflows of resources were greater than assets and deferred outflows of resources by \$7.27 million.

Capital assets, which consist of the District's land, buildings, building improvements, vehicles, and equipment, represent about 18.9 percent of total assets and deferred outflows. The remaining assets consist mainly of cash and investments and represent 73.8 percent of total assets and deferred outflows. At June 30, 2017, capital assets represented approximately 58.9 percent of total assets and deferred outflows.

The District's largest liability (76.2 percent) is for the repayment of long-term debt and obligations including general obligation and limited tax pension bonds. Pension and OPEB liabilities represent 18.2 percent of the District's total liabilities and deferred outflows. Current liabilities, representing about 4.6 percent of the District's total liabilities and deferred inflows, consist almost entirely of payables on accounts, salaries and benefits, and the current portion of long-term debt and accrued interest. In the prior year, the repayment of general obligation and limited tax pension bonds, and pension and OPEB liabilities was also the District's largest liability (87.9 percent) while current liabilities represented about 9.5 percent of total liabilities and deferred inflows.

A large portion of the District's net position reflects its investment in capital assets (e.g. land, buildings, vehicles and equipment) less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to students and other District residents; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources (generally property taxes), since the capital assets themselves cannot be used to liquidate these liabilities.

Total net position	\$	(5,426)	\$	(7,272)	\$	1,846

- The \$73 million increase in current assets, and \$68.4 million increase in long-term liabilities is mainly due to receipt of bond proceeds, and issuance of general obligation bonds in 2018.
- During the current fiscal year, the District's net position increased by \$1.85 million.

Governmental activities

As previously stated, most District activities are governmental in nature, and during the current fiscal year, the District's net position increased by \$1.85 million. The key elements of the change in the District's net position for the year ended June 30, 2018 are as follows:

Total expenses		31,600		30,429		1,172	
Change in net position	\$	1,848	\$	(171)	\$	2,019	

- Program revenues increased slightly by \$135 thousand in 2017-18.
- General revenues increased by \$3.19 million in 2017-18 due to an increase in state school fund of \$2.34 million. There was also an increase of \$486 thousand in property and construction excise taxes and an increase in investment earnings of \$269 thousand.
- Instruction, support services and enterprise and community services expenses increased slightly, and an increase of \$1.11 million of fees and interest on long-term debt were related to issuance of the 2018 general bond obligation.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental funds

The focus of the District's governmental funds is to provide information on relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing

requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resource's available for spending at the end of a fiscal year.

At June 30, 2018, the District's governmental funds reported combined ending fund balances of \$76.83 million, an increase of \$73.00 million in comparison with the prior year. About \$3.87 million (5.0 percent) of the ending fund balance constitutes *unassigned ending fund balance*, which is available for spending at the District's discretion.

The General Fund is the chief operating fund of the District. As of June 30, 2018, fund balance was \$4.12 million, up from \$1.89 million in the prior year. As a measure of the fund's liquidity, it may be useful to compare total fund balance to total fund expenditures. Fund balance represents 16.44 percent of total General Fund expenditures. The fund balance increased by \$2.22 million during the current fiscal year.

The Special Revenue Fund accounts for the proceeds of specific revenue sources that are legally restricted to expenditure for specific purposes. As of June 30, 2018, the District has a total fund balance of \$2.07 million. In the prior year total fund balance was \$1.76 million.

The Debt Service Fund has a total fund balance of \$231 thousand, all of which is reserved for the payment of debt service. The net increase in fund balance during the current year was \$56 thousand.

The Capital Projects Fund has a total fund balance of \$70.41 million which is committed for the purpose of upgrading the District's schools. This is a new fund in 2017-18 and was funded by the issuance of the 2018 general obligation bond proceeds.

General Fund Budgetary Highlights

Original budget compared to final budget. During 2017-18 a supplemental budget was adopted to appropriate additional special revenue funds received, and a portion of the general obligation bond proceeds expected to be spent before year end. There was one budget appropriation transfer within the General Fund to reallocate funds to cover higher than anticipated expenses in support services. There was also one budget appropriation transfer within the Special Revenue Fund to reallocate additional funds to Enterprise and Community Services.

Final budget to actual results

The most significant difference between estimated and actual general fund revenue was the revenue received from state sources. Total estimated revenues were \$25.59 million and total actual revenues were \$27.25 million with a difference of \$1.66 million. Additional State School funding was received due to a positive prior year adjustment of \$523 thousand, and a higher than anticipated funding formula allocation was received in 2017-18.

General Fund expenditures were lower than projected due to several purchases of services and curriculum being postponed until the 2018-19 school year. There was also a decrease on special education services expenditures in 2017-18.

Capital Asset and Debt Administration

Capital assets

The District's investment in capital assets includes land, buildings and improvements, and vehicles and equipment. As of June 30, 2018, the District had invested \$19.69 million in capital assets, net of depreciation, as shown in the following table:

		Government	tal A	Activities	-	ncrease ecrease) From
	Ju	ne 30, 2018	Ju	ne 30, 2017	7 June 30, 2017	
Capital assets (net of depreciation):						
Land	\$	2,196,232	\$	2,188,639	\$	7,593
Construction in progress		599,550		261,191		338,359
Buildings and improvements		15,840,919		16,342,378		(501,459)
Vehicles and equipment		1,048,455		1,034,565		13,890
Total capital assets	\$	19,685,156	\$	19,826,773	\$	(141,617)

During the year, the District's investment in capital assets, net of depreciation, decreased by \$142 thousand. The District's current year depreciation expense was approximately \$916 thousand.

Additional information of the District's capital assets can be found in Note 1 and Note 4 of this report.

Long-term debt

At the end of the current fiscal year, the District had total bonded debt outstanding of \$86.22 million, consisting of general obligation debt net of unamortized premium/discount, compared to \$17.35 million in the prior year.

During the current year, the District's total debt increased by \$68.87 million as a result of the issuance of \$68 million in 2018 general obligation bonds and current year principal payments made.

State statutes limit the amount of general obligation debt a governmental entity may issue to 7.95 percent of its total assessed valuation. The current debt limitation for the District is in excess of the District's outstanding general obligation debt.

Additional information on the District's long-term debt can be found in Note 1 and Note 8 on of this report.

Economic Factors and Next Year's Budget

On March 20, 2018, the District issued general obligation bonds for \$68 million. The State of Oregon approved matching \$4 million OSCIM grant will be spent during 2019-20.

The most significant economic factors for the District's operations are the State of Oregon's School Fund Formula and property taxes.

For the year ended June 30, 2018, the State of Oregon's School Fund formula, property and construction excise taxes represented about 87 percent of the District's revenues.

Salaries and benefit costs are expected to increase approximately 5% in 2018-19 based on current contractual obligations.

PERS Employer Contribution rates for the 2019-2021 biennium will increase an average of 4.19%.

District membership is expected to remain static or decrease slightly for the next two years. Following that, it is expected to begin trending upward as new planned housing construction will fuel student population growth.

The District's Budget Committee and School Board considered these factors while preparing the budget for the 2018-2019 fiscal year.

Requests for Information

This financial report is designed to present the user (citizens, taxpayers, investors, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Director of Accounting at 401 W. 4th Street, PO Box 698, Phoenix, Oregon 97535.

JACKSON COUNTY SCHOOL DISTRICT NO. 4 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES Year Ended June 30, 2018

NET CHANGE IN FUND BALANCE		\$ 73,002,700
Amounts reported for governmental activities in the Statement of Activities are different because:		
Government funds report capital outlay as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period. Expenditures for capital assets Loss on disposal of assets Less current year depreciation	\$ 782,093 (8,067) (915,643)	(141,617)
The issuance on long-term debt provides current financial resources to governmental funds, while the payment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.		
Debt proceeds Debt principal repaid Capital lease long-term debt		(71,272,784) 2,402,000 2,977
Governmental funds report the effect of premiums, deferred charges and discounts when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences: Amortization of premium (discount)		4,914
In the Statement of Activities interest is accrued on long-term debt, whereas in the governmental funds it is recorded as an interest expense when due. Interest paid Interest expense	799,184 (1,439,908)	(640,724)
Governmental funds do not report inventory balances under the purchase method of accounting for inventory while the Statement of Net Position does. This is the change in inventory in the current period.		471
Property taxes that do not meet the measurable and available criteria are not recognized as revenue in the current year in the governmental funds. In the Statement of Activities property taxes are recognized as revenue when levied.		3,322
Governmental funds report pension contributions as expenditures. In the statement of activities, the cost of pension benefits earned (actuarially determined) net of employee contributions is reported as either pension expense or income. This is the net change in pension related items.		(1,731,999)
Governmental funds report OPEB contributions as expenditures. In the statement of activities, the cost of OPEB benefits earned (actuarially determined) net of employee contributions is reported as either pension expense or income. This is the net change in OPEB related items.		218,582
CHANGE IN NET POSITION		\$ 1,847,842

Note 1 - Summary of Significant Accounting Policies

The financial statements of Jackson County School District No. 4 (the District), Oregon have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting standards. The more significant of the District's accounting policies are described below.

The Reporting Entity

Jackson County School District No. 4, Phoenix-Talent, Oregon, was organized under provisions of Oregon Statutes pursuant to ORS Chapter 332 for the purpose of operating elementary and secondary schools. The District is governed by a separately elected seven-member Board of Education (Board) who approves the administrative officials. The daily functioning of the District is under the supervision of the Superintendent. As required by generally accepted accounting principles, all activities of the District have been included in the basic financial statements.

The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. There are various governmental agencies and special service districts, which provide service within the District's boundaries. However, the District is not financially accountable for any of these entities, and therefore, none of them are considered component units or included in these basic financial statements.

The more significant of the District's accounting policies are described below.

Basis of Presentation

Government-wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District. These statements include the governmental financial activities of the overall District. Eliminations have been made to minimize the double counting of internal activities. Governmental activities are financed primarily through property taxes, intergovernmental revenues, and charges for services.

The Statement of Activities presents a comparison between direct expenses and program revenues for each of its functions/programs. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to that function. Eliminations have been made to minimize the double counting of internal activities in the Statement of Activities. Program revenues include: (1) charges to students or others for tuition, fees, rentals, materials, supplies or services provided, (2) operating grants and contributions, and (3) capital grants and contributions. Revenues that are not classified as program revenues, including property taxes and state support, are presented as general revenues.

Net Position is reported as restricted when constraints placed on net asset use is either externally restricted, imposed by creditors (such as through grantors, contributors or laws) or through constitutional provisions or enabling resolutions.

Fund Financial Statements

The fund financial statements provide information about the District's funds. Separate statements for each fund category are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All the District's funds are categorized as major funds.

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Presentation (continued)

The District reports the following major governmental funds:

General Fund – The General Fund is the District's primary operating fund and accounts for all revenues and expenditures except those required to be accounted for in another fund.

Special Revenue Fund – The Special Revenue Fund accounts for revenues and expenditures of grants restricted for specific educational purposes. Principal revenue sources are federal and state grants.

Debt Service Fund – The Debt Service Fund provides for the payment of principal and interest on general obligation bonded debt. Principal revenue sources are property taxes.

Capital Project Fund – The Capital Project Fund accounts for activities related to the acquisition, construction, equipping and furnishing of facilities. Principal revenue sources are proceeds from the sale of bonds and interest earnings.

Measurement Focus and Basis of Accounting

Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District receives value without giving equal value in exchange, include property taxes, grants, entitlements and donations. On the accrual basis of accounting, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, and there are both restricted and unrestricted net position available to finance the program, it is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

Governmental fund financial statements are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Property taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt and claims and judgments, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in the governmental funds and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

Note 1 - Summary of Significant Accounting Policies (continued)

Cash, Cash Equivalents and Investments

The District's cash and cash equivalents consist of cash on hand and demand deposits.

The District's investments, authorized under state statute, consist of the State of Oregon Treasurer's Local Government Investment Pool (LGIP) and obligations of the United States (U.S.) Government and its agencies and instrumentalities. Changes in the fair value of investments are recorded as investment earnings.

The LGIP is stated at cost which approximates fair value. Fair value of the LGIP is the same as the District's value in the pool shares. The Oregon State Treasury administers the LGIP. It is an open-ended no-load diversified portfolio offered to any agency, political subdivision or public corporation of the State that by law is made the custodian of, or has control of, any fund. The LGIP is commingled with the State's short-term funds. In seeking to best serve local governments of Oregon, the Oregon legislature established the Oregon Short-Term Fund Board. The purpose of the Board is to advise the Oregon State Treasury in the management and investment options of the LGIP. The investments are regulated by the Oregon Short Term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895).

Property Taxes Receivable

Ad valorem property taxes are levied on all taxable property as of January 1 preceding the beginning of the fiscal year. Property taxes become a lien on July 1 for personal property and real property. Property taxes are levied on July 1. Collection dates are November 15, February 15, and May 15. Discounts are allowed if the amount due is received by November 15 or February 15. Taxes unpaid and outstanding on May 16 are considered delinquent.

Uncollected property taxes are recorded on the Statement of Net Position. Uncollected taxes are deemed to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectible taxes has been established.

Accounts and Other Receivables

Accounts receivable and other receivables consist primarily of charges for services, claims for reimbursement of costs under various federal and state grant programs and refunds of prior year expenditures.

Grants

Unreimbursed grant expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Grant monies received prior to the occurrence of qualifying expenditures are recorded as unearned revenue.

Inventories

Inventory consists of supplies held for sale. In the government-wide financial statements, inventories are stated at cost using the first-in, first-out (FIFO) method. In the fund financial statements, inventory is reported using the purchase method where purchases are charged to expense when purchased.

A portion of the inventory consists of donated United States Department of Agriculture (USDA) commodities. Commodities are recorded as expenditures when consumed and are stated at their fair market value based on guidelines provided by the USDA.

Note 1 - Summary of Significant Accounting Policies (continued)

Capital Assets

Capital assets are recorded at original or estimated original cost. Donated capital assets are recorded at their estimated fair market value on the date donated. The District defines capital assets as assets with an initial cost of more than \$5,000 and an estimated life in excess of one year. Interest incurred during construction is not capitalized. Maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements – 20 to 50 years Equipment - 3 to 20 years

Post-Employment Health Care Benefits

Eligible employees who elect early retirement are entitled to payment of group medical insurance premiums. Such costs are recorded as expenses in the General Fund and funded as premiums become due.

Additionally, substantially all of the District's employees are participants in the State of Oregon Public Employees Retirement System (OPERS) – Retirement Health Insurance Account (RHIA). Contributions to OPERS RHIA are made on a current basis as required by the plan and are charged as expenses

Retirement Plans

Substantially all of the District's employees are participants in the State of Oregon Public Employees Retirement System (OPERS). Contributions to OPERS are made on a current basis as required by the plan and are charged as expenses/expenditures.

Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. All unused vacation pay is accrued when earned in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignation and retirements.

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has two types of deferred outflows, both arise under the full accrual basis of accounting that qualifies for reporting in this category: deferred amounts related to pensions and deferred amounts related to other postemployment benefits. These amounts are reported in the government-wide statement of net position.

The governmental funds report expense related to pension and other postemployment benefits contributions. These amounts are deferred and recognized as an outflow of resources in the period that is actuarially determined.

Note 1 - Summary of Significant Accounting Policies (continued)

Deferred Outflows/Inflows of Resources (continued)

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition on net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has three types of deferred inflows, one which arises only under the modified accrual basis of accounting (unavailable revenues) and two that are reported under the full accrual basis of accounting (deferred amounts related to pensions and deferred amounts related to other postemployment benefits). Accordingly, unavailable revenue, is reported only in the governmental funds balance sheet, and deferred amounts related to pensions and deferred amounts related to other postemployment benefits, is reported in the government-wide statement of net position.

Long-term Debt

In the government-wide financial statements, long-term debt is reported as a liability in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements bond premiums and discounts are recognized when incurred and not deferred. The face amount of the debt issued, premiums received on debt issuances, and discounts are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures when incurred.

Net Position/Fund Balance

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net investment in capital assets – consists of net capital assets reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increase by balances of deferred outflows of resources related to those assets.

Restricted net position – consists of net position with constraints placed on the use by either (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation. Restricted net position is reduced by liabilities and deferred inflows or resources related to the restricted assets.

Unrestricted net position (deficit) – consists of all other net position that does not meet the definition of the above two components and is available for general use by the District.

In the fund financial statements, governmental fund equity is classified in the following categories:

Non-Spendable – Includes items not immediately converted to cash, such as prepaid items and inventory.

Restricted – Includes items that are restricted by external creditors, grantors or contributors, or restricted by legal constitutional provisions.

Committed – Includes items committed by the District's Board of Education, by formal board action.

Assigned – Includes items assigned for specific uses, authorized by the District's Superintendent and/or Business Manager.

Unassigned – This is the residual classification used for those balances not assigned to another category.

Note 1 - Summary of Significant Accounting Policies (continued)

Budget

A budget is prepared and legally adopted for each governmental fund type on the modified accrual basis of accounting. This budgetary basis of accounting is different than accounting principles generally accepted in the United States of America (GAAP). The major differences between the budgetary and GAAP basis of accounting are that capital outlay and other long-term assets, and debt principal and other long-term liabilities, are included as budgeted expenditures in the governmental fund types. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations.

Appropriations are established at the major function level (instruction, support services, enterprise and community services, facilities acquisition and construction, debt service, operating contingency and transfers) for each fund. The detail budget document, however, is required to contain more specific, detailed information for the aforementioned expenditure categories. Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution.

Supplemental budgets less than 10% of a fund's original budget may be adopted by the Board at a regular meeting. A supplemental budget greater than 10% of a fund's original budget requires hearings before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers within a fund between the levels of control (major function levels) with Board approval. The District did not exceed its authorized appropriations for the year ended June 30, 2018.

Use of Estimates

The preparation of basic financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that effect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

Adoption of New GASB Pronouncements

During the fiscal year ended June 30, 2018, the District implemented the following GASB pronouncements:

GASB Statement No. 80, Blending Requirements for Certain Component Units. Issued January 2016, this statement improves financial reporting by clarifying the financial statement presentation requirements for certain component units.

GASB Statement No. 81, Irrevocable Split-Interest Agreements. Issued March 2016, this statement improves accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement.

Note 1 - Summary of Significant Accounting Policies (continued)

Adoption of New GASB Pronouncements (continued)

GASB Statement No. 85, Omnibus 2017. Issued March 2017, this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, good will fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). Specifically, this Statement addresses the following topics:

- Blending a component unit in circumstances in which the primary government is a business-type activity that reports in a single column for financial statement presentation
- Reporting amounts previously reported as good will and "negative" goodwill
- Classifying real estate held by insurance entities
- Measuring certain money market investments and participating interest-earning investment contract at amortized cost
- Timing of the measurement of pension or OPEB liabilities and expenditures recognized in financial statements prepared using the current financial resources measurement focus
- Recognizing on-behalf payments for pensions or OPEB in employer financial statements
- Presenting payroll-related measures in required supplementary information for purposes of reporting by OPEB plans and employers that provide OPEB
- Simplifying certain aspects of the alternative measurement method for OPEB
- Accounting and financial reporting for OPEB provided through certain multiple-employer defined benefit OPEB plans.

GASB Statement No. 86, Certain Debt Extinguishment Issues. Issued May 2017, the purpose of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources-resources other than the proceeds of refunding debt-are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance.

Future GASB Pronouncements

The following GASB pronouncements have been issued, but are not effective as of June 30, 2018:

GASB Statement No. 83, *Certain Asset Retirement Obligations*. Issued November 2016, this statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). GASB 83 will be effective for the District, fiscal year ending June 30, 2019.

GASB Statement No. 84, *Fiduciary Activities*. Issued January 2017, this statement establishes criteria for identifying fiduciary activities of all state and local governments. GASB 84 will be effective for the District, fiscal year ending June 30, 2020.

GASB Statement No. 87, Leases. Issued June 2017 to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments and increases the usefulness of governments' financial statements. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. GASB Statement No. 87 will be effective for the District for fiscal year ending June 30, 2021.

Note 1 - Summary of Significant Accounting Policies (continued)

Future GASB Pronouncements (continued)

GASB Statement No. 88, Certain Disclosures Related to Debt, Including Direct Borrowing and Direct Placements. Issued March 2018 to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. GASB Statement No. 88 will be effective for the District for fiscal year ending June 30, 2019.

GASB Statement No. 89, Accounting for Interest Costs Incurred Before the End of a Construction Period. This statement was issued June 2018 to establish accounting requirements for interest cost incurred before the end of a construction period. The objectives of the Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. GASB Statement No. 89 will be effective for the District for fiscal year ending June 30, 2021.

GASB Statement No. 90, *Majority Equity Interests*. Issued August 2018, the primary objective of this statement is to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization; and to improve the relevance of financial statement information for certain component units. GASB Statement No. 90 will be effective for the District for fiscal year ending June 30, 2020.

The District is currently evaluating whether or not the above listed new GASB pronouncements will have a significant impact to the District's financial statements.

Note 2 - Cash and Investments

Cash and investments are composed of the following at June 30, 2018:

Petty cash	\$	300
Deposits with financial institutions:		
Demand deposits	1,4	472,152
Investments	75,	289,213
Total cash and investments	\$ 76,	761,665

<u>Deposits.</u> The Governmental Accounting Standards Boards has adopted accounting principles generally accepted in the United States of America (GAAP), which include standards to categorize deposits to give an indication of the level of custodial credit risk assumed by the District at June 30, 2018. If bank deposits at year end are not entirely insured or collateralized with securities held by the District or by its agent in the District's name, the District must disclose the custodial credit risk that exists. Deposits with financial institutions are comprised of bank demand deposits. For deposits in excess of federal depository insurance, Oregon Revised Statutes require depository institutions to be in compliance with ORS 295. For the fiscal year ended June 30, 2018, the carrying amounts of the District deposits in various financial institutions were \$2,212,384 and the bank balances were \$1,472,152. All deposits are held in the name of the District. Of the bank balance, \$1,927,788 is not covered by FDIC insurance. However, the balance is covered by the State of Oregon shared liability structure for participating bank depositories in Oregon, as identified by the State's Treasurer.

Note 2 - Cash and Investments (continued)

Effective July 1, 2008, House Bill 2901 created a shared liability structure for participating bank depositories in Oregon. Barring any exceptions, a qualifying bank depository is required to pledge collateral valued at least 10% of their quarter-end public fund deposits if they are well capitalized, 25% of the quarter-end public fund deposits if they are adequately capitalized, or 110% of the quarter-end public fund deposits if they are undercapitalized or assigned to pledge 110% by the Office of State Treasurer. In the event of a bank failure, the entire pool of collateral pledged by all qualified Oregon public bank depositories is available to repay the deposits of public funds of governmental entities.

Custodial Credit Risk. Custodial credit risk for deposits is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk.

<u>Investments.</u> The District has invested funds in the State Treasurer's Oregon Short-term Fund Local Government Investment Pool during fiscal year 2018. The Oregon Short-term Fund is the local government investment pool for local governments and was established by the State Treasurer. It was created to meet the financial and administrative responsibilities of federal arbitrage regulations. The investments are regulated by the Oregon Short-Term Fund Board and approved by the Oregon

Investment Council (ORS 294.805 to 294.895). Local Government Investment Pool (LGIP) is an external investment pool managed by the State Treasurer's office, which allow governments within the state to pool their funds for investment purposes. The amounts invested in the pool are not classified by risk categories because they are not evidenced by securities that exist in physical or book entry form as defined by GASB statement No. 40. LGIP is not rated.

In addition, the Oregon State Treasury LGIP distributes investment income on an amortized cost basis and participants' equity in the pool is determined by the amount of participant deposits, adjusted for withdrawals and distributed income. Accordingly, the adjustment to fair value would not represent an expendable increase in the District's cash position.

Investments in the Oregon State Treasury LGIP are made under the provisions of ORS 194.180. These funds are held in the District's name and are not subject to collateralization requirements or ORS 295.015. Investments are stated at amortized cost, which approximated fair value.

Bond investments are valued on the basis of last available bid prices or current market quotations.

State of Oregon statutes restrict the types of investments in which the District may invest. Authorized investments include obligations of the United States Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, time certificates of deposit, certain commercial paper, and the State of Oregon Treasurer's Local Government Investment Pool. As of June 30, 2018, and for the year then ended, the District was in compliance with the aforementioned State of Oregon statutes.

Credit Risk. State Statutes authorize the District to invest primarily in general obligations of the U.S. government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, banker's acceptances, certain commercial papers, and the State Treasurer's Investment Pool, among others. The District has no formal investment policy that further restricts its investment choices.

Concentration of Credit Risk. The District is required to provide information about the concentration of credit risk associated with its investments in one issuer that represents 5 percent or more of the total investments, excluding investments in external investment pools or those issued and explicitly guaranteed by the U.S. Government. All the District's investments are in an external investment pool or investments issued and explicitly guaranteed by the U.S. Government.

Note 2 - Cash and Investments (continued)

Interest Rate Risk. The District has no formal investment policy that explicitly limits investment maturities as a means of managing its exposure to fair value loss arising from increasing interest rates.

As of June 30, 2018, the District had the following investments and maturities:

	Percentage						
Investment Type	Maturity	of Portfolio	Fair Value				
Local Government Investment Pool	1 day	24%	\$ 17,866,745				
U.S. Agencies	Less than 1 year	17%	12,976,365				
U.S. Agencies	1- 5 years	59%	44,446,103				
			\$ 75,289,213				

Disclosures about Fair Value of Assets. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 - Unadjusted inputs using quoted prices in active markets for identical investments.

Level 2 - Other significant observable inputs other than level 1 prices, including, but are not limited to, quoted prices for similar investments, inputs other than quoted prices that are observable for investments (such as interest rates, prepayment speeds, credit risk, etc.) or other market corroborated inputs.

Level 3 - Significant inputs based on the best information available in the circumstances, to the extent observable inputs are not available.

Investments Measured at Fair Value:	Totals as of 6/30/2018	Level One		Level One Level Two		Three	Amortized Cost Measurement Not Measured at Fair Value	
U.S. Agencies Local Government	\$ 57,422,468	\$	-	\$ 57,422,468	\$	-	\$	-
Investment Pool	17,866,745					_	17,8	866,745
	\$ 75,289,213	\$		\$ 57,422,468	\$		\$ 17,8	866,745

Note 3 - Receivables

Receivables are comprised of the following as of June 30, 2018:

	Property Taxes		 Grants	Other	 Total
General Fund Special Revenue Fund Debt Service Fund	\$	643,562 - 140,511	\$ 997,420 -	\$ 159,580 - -	\$ 803,142 997,420 140,511
	\$	784,073	\$ 997,420	\$ 159,580	\$ 1,941,073

Note 4 - Capital Assets

The changes in capital assets for the year ended June 30, 2018 are as follows:

	Balance _July 1, 2017Addition		Disposals / Transfers	Balance June 30, 2018	
Capital assets not being depreciated: Land Construction in progress	\$ 2,188,639 261,191	\$ 7,593 588,091	\$ - (249,732)	\$ 2,196,232 599,550	
Total capital assets not being depreciated	\$ 2,449,830	\$ 595,684	\$ (249,732)	\$ 2,795,782	
Capital assets being depreciated:					
Building & Improvements	\$ 35,484,433	\$ 63,190	\$ 249,732	\$ 35,797,355	
Equipment/Fixtures/Vehicles	7,083,456	123,219	(95,265)	7,111,410	
Total capital assets being depreciated	\$ 42,567,889	\$ 186,409	\$ 154,467	\$ 42,908,765	
Less accumulated depreciation for:					
Building & Improvements	\$ (19,142,055)	\$ (814,381)	\$ -	\$ (19,956,436)	
Equipment/Fixtures/Vehicles	(6,048,891)	(101,262)	87,198	(6,062,955)	
Total accumulated depreciation	\$(25,190,946)	\$ (915,643)	\$ 87,198	\$(26,019,391)	
Total capital assets (net)					
Land	\$ 2,188,639	\$ 7,593	\$ -	\$ 2,196,232	
CIP	261,191	588,091	(249,732)	599,550	
Building & Improvements	16,342,378	(751,191)	249,732	15,840,919	
Equipment/Fixtures/Vehicles	1,034,565	21,957	(8,067)	1,048,455	
Total capital assets (net)	\$ 19,826,773	\$ (133,550)	\$ (8,067)	\$ 19,685,156	

Unallocated depreciation expense for fiscal year 2018 totaled \$915,643.

Note 5 - Unavailable/Unearned Revenues

Governmental funds report deferred inflows of resources in connection with receivables that are not considered to be available to liquidate liabilities of the current period. Amounts received in advance of the period in which services are performed and recorded in unearned revenue. At June 30, 2018, the various components of unearned revenue included in the governmental funds' Balance Sheet consist of the following:

	Unavailable		U	nearned	Total		
General fund Property Taxes	\$	491,347	\$		\$	491,347	
Special revenue fund Grants		-		95,860		95,860	
Debt service fund Property taxes		107,168				107,168	
Total unearned revenue	\$	598,515	\$	95,860	\$	694,375	

Note 6 - Operating Leases

The District leases copiers under non-cancellable operating leases. Total costs for such leases were \$42,140 for the fiscal year ended June 30, 2018. The future minimum lease payments for these leases are as follows:

Fiscal Year Ending June 30,	Amount
2019 2020 2021 2022	\$ 36,765 24,753 10,205 4,670
Total	\$ 76,393

Note 7 - Capital Lease Payable

On June 6, 2016 the District entered into a capital lease to finance equipment that matures on June 1, 2019. The lease is payable in 36 monthly installments of \$278, including an imputed interest rate of 7.98%. The cost of this equipment was \$8,946. Interest expense in the current year was \$365.

The following is the scheduled payment amount:

Fiscal							
Year Ending							
June 30	Pr	Principal		Interest		Total	
2019	\$	2,942	\$	121	\$	3,063	
T-4-1	_	0.040		404	_	0.000	
Total	\$	2,942	\$	121	\$	3,063	

Note 8 - Long-Term Debt

General Obligation Bonds

On July 11, 2011, the District refunded its 2001 general obligation bonds. The General Obligation Refunding Bonds, Series 2011 was for \$2,490,000 for an economic gain of \$345,367.

The 2011 series was issued with a premium that is being amortized on the effective interest method over the life of the bond.

Principal payments are due annually on June 15 and interest payments are due semiannually on June 15 and December 15. The bonds mature in 2020 and carry an annual interest rate that varies from 2.88-3.00%.

Fiscal Year Ending June 30,	 Principal	lı	nterest	 Total	Interest Rate
2019 2020	\$ 1,635,000 805,000	\$	72,194 23,144	\$ 1,707,194 828,144	3.000% 2.875%
Total	\$ 2,440,000	\$	95,338	\$ 2,535,338	

Note 8 - Long-Term Debt (continued)

On May 26, 2015, the District advance refunded the outstanding Series 2005 General Obligation Bonds to provide for lower interest rates and a reduced future cost to District taxpayers. The advance refunding was accomplished by issuing Series General Obligation Refunding Bond, Series 2015 in the amount of \$5,237,000. Principal payments are due annually on June 15 and interest payments are due semiannually on June 15 and December 15. The bonds mature in 2019 and carry an annual interest rate of 1.31%.

Fiscal Year Ending June 30,	Principal		Interest		Total	Interest Rate	
2019	\$	190,000	\$	2,489	\$ 192,489	1.31%	
Total	\$	190,000	\$	2,489	\$ 192,489		

On March 20, 2018, the District issued \$48,101,046 General Obligation Bonds, Series 2018A (Tax-Exempt Deferred Interest Bonds) and \$19,895,000 General Obligation Bonds, Series 2018B (Tax-Exempt Current Interest Bonds), collectively the "Bonds". The Bonds have interest rates ranging between 1.77% and 5.00%. They were issued at a premium of \$3,276,768 and incurred issuance cost of \$454,291. The \$70,818,523 proceeds from the sale of the Bonds will be used to finance capital costs (Project) and to pay the costs of issuance of the Bonds. Specifics on the Project include: 1) improving safety, security, and learning environments at all schools, 2) increasing accessibility for people with disabilities at all schools, 3) construction of new classrooms and educational facilities and major renovations to Career Technical Education buildings, academic buildings and athletic facilities at Phoenix High School, 4) seismic upgrades at all schools, 5) addressing future growth of the District, and 6) modernizing all schools, including improvements for heating, ventilation, energy efficiency and lighting.

Fiscal Year				Interest	
Ending June 30,	Principal	Interest	Total	Rate	
2019	\$ -	\$ 1,151,376	\$ 1,151,376	1.770%

Total	\$ 67,996,046	\$ 66,272,130	\$ 134,268,176		

Pension Obligation Bond - Series 2004

In February of 2004, the District participated in a pooled issuance of Series 2004 limited tax pension obligations. Certain Oregon school districts and education service districts issued limited tax obligations (Pension Obligation), the proceeds of which were used to finance a portion of the estimated unfunded actuarial liability of each issuer with the Oregon Public Employees Retirement System (PERS). The full faith and credit of the District was pledged for the punctual payment of the principal of and interest on its Pension Obligation, and debt service on the Pension Obligation is not subject to annual appropriation. The Pension Obligation is further secured by an Intercept Agreement under which an amount equal to the debt service on each issuer's Pension Obligation will be diverted from State Education Revenues.

Note 8 - Long-Term Debt (continued)

On February 6, 2004, the District entered into an agreement to participate in the Oregon School Board Association Limited Tax Pension Bonds. Bonds were issued in the amount of \$14,895,000, bearing an interest rate of 3.25% to 5.53%, payable semiannually on June 30 and December 30 of each year until maturity in 2028. The 2004 Obligations are subject to prepayment as further described in the official statement.

Fiscal Year Ending June 30,	Principal	Interest	Total	Interest Rate
2019	715,000	661,807	1,376,807	5.323%
2020	825,000	623,747	1,448,747	5.373%
2021	940,000	579,420	1,519,420	5.423%
2022	1,065,000	528,444	1,593,444	5.473%
2023	1,205,000	470,156	1,675,156	5.528%
2024-2028	7,300,000	1,176,912	8,476,912	5.528%
Total	\$ 12,050,000	\$ 4,040,486	\$ 16,090,486	

OSBA FlexFund Obligation Bond

On October 30, 2012, the District entered into an agreement to participate in the Oregon School Boards Association (OSBA) FlexFund Program. Bonds were issued in the amount of \$602,000, bearing an interest rate of 0.75% to 3.00%, payable semiannually. The bonds mature in 2022. The bonds maturing in the years 2014 through 2017 are not subject to redemption prior to maturity. The bonds maturing on or after the year 2018 are subject to redemption from the proceeds of the optional prepayment of the Installment Financing Agreement. The Installment Financing Agreement is subject to optional prepayment by the Issuer, in whole or in part on any date, on and after June 1, 2017 at the price of par plus accrued interest, if any, to the date of redemption.

Fiscal Year Ending June 30,	Principal		Ir	Interest Total			Interest Rate		
2019 2020 2021 2022	\$	62,000 62,000 62,000 67,000	\$	6,350 5,110 3,638 2,010	\$	68,350 67,110 65,638 69,010	2.000% 2.375% 2.625% 3.000%		
Total	\$	253,000	\$	17,108	\$	270,108			

Note 8 - Long-Term Debt (continued)

The changes in unmatured bond principal for the year ended June 30, 2018 are as follows:

	Original Issue	Outstanding July 1, 2017	July 1,		Outstanding June 30, 2018	Due in One Year	
General Obligation Bonds 2011 Series 2015 Series 2018 Series	\$ 2,490,000 5,237,000 67,996,046	\$ 2,450,000 1,910,000	\$ - 67,996,046	\$ (10,000) (1,720,000)	\$ 2,440,000 190,000 67,996,046	\$ 1,635,000 190,000

Unamortized Premium/(Discount)		\$ 14,742	\$ 3,276,738	\$ (4,914)	\$ 3,286,566	\$ 221,982	
		\$ 17,349,742	\$ 71,272,784	\$ (2,406,914)	\$ 86,215,612	\$ 2,823,982	

Interest paid on the above debt was \$798,819 and interest expense for the current fiscal year is \$1,439,543.

Note 9 - Permanently Restricted Net Position/Fund Balance

During the year ended June 30, 2009 the Fletcher Fish Memorial Scholarship fund (Scholarship fund) was established. The contribution is permanently restricted by the donor. Only the income from the fund shall be used to award scholarships to Phoenix High School graduates attending postsecondary educational institutions and shall be awarded based on academic accomplishments and financial need. Two scholarships may be awarded annually. At June 30, 2018 the balance of the Scholarship fund is \$621,195. The Scholarship fund is currently invested in the Local Government Investment Pool earning average interest rate of 2.250%.

Note 10 - Post-Employment Benefits Other Than Pensions (OPEB)

The District has two separate other post-employment benefits (OPEB) plans. The District provides a single employer defined benefit health care plan to staff that were hired before July 1, 2003 and the District contributes to the State of Oregon's PERS cost-sharing multiple employer defined benefit plan.

Single-Employer Defined Benefit Health Care Plan -

Plan Description – The District maintains a single-employer defined benefit OPEB plan that provides post-employment health benefits to eligible employees and their dependents. Generally, the program covers all who meet Oregon PERS retirement eligibility by receiving benefits from Oregon PERS. For Tier 1 or Tier 2 members they may retire earlier of age 55, or any age with 30 years of service. OPSRP members must be age 55 or older with five years of service. The program covers Administrative, Classified and Confidential staff that have been employed prior to July 1, 2003. Additionally, eligible Administrative staff must have at least 15 years of experience, Classified staff 20 years of continuous full-time experience, and Confidential staff 10 years of experience. An eligible employee qualifies for paid health care coverage currently being received by active employees. Qualified spouses, domestic partners, and children may qualify for coverage. The coverage is paid for eight years or until Medicare eligibility, whichever comes first. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75.

For fiscal year ended June 30, 2018, District contributions for Administrative and Confidential retirees are capped at \$1,801 per month, and for Classified retirees, are capped at \$1,311 per month. These caps are expected to inflate in future years.

In addition, the District's post-retirement healthcare plan was established in accordance with Oregon Revised Statutes (ORS) 243.303, which requires that all eligible retirees are allowed to continue receiving health insurance benefits, at their cost, until age 65 or they become otherwise eligible for Medicare. ORS stipulate that for the purpose of establishing healthcare premiums, the rate must be based on all plan members, including both active employees and retirees. Their requirement to make available to retirees (at the retirees' own cost) access in to the healthcare plan has an implicit cost to the district.

Funding Policy – The benefits from the single-employer defined benefit OPEB plan are paid by the District based on bargaining agreement language and contributions by employees are also required. The plan is not accounted for in a pension trust fund; therefore, designated funds are not legally restricted to pay future benefits. The benefits from the healthcare plan established in accordance with ORS 243.303 are paid by the retired employees on a self-pay basis and the required contribution is based on projected pay-as-you go financing requirements. There is no obligation on the part of the District to fund these benefits in advance. The District did not establish an irrevocable trust (or equivalent arrangement) to account for the plan.

Employees Covered by Benefit Terms – The explicit benefit for the single-employer defined benefit OPEB plan was ceased to all employees hired subsequent to July 1, 2003. As a result, the total plan members receiving the explicit benefit will decrease over time. At June 30, 2018, the following employees were covered by the explicit benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	35
Inactive employees entitled to but not yet receiving benefit payments	-
Active plan members	208
	243

Note 10 - Post-Employment Benefits Other Than Pensions (OPEB) (continued)

Total OPEB Liability – The districts total OPEB liability of \$2,835,789 was measured as of June 30, 2018, and was determined by an actuarial valuation date as of July 1, 2016.

Actuarial Assumptions and Other Inputs – The total OPEB liability in the actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Input	Assumption
Actuarial Cost Method	Early age normal, level percent of salary
Interest Rate Utilized for Discounting	3.0% per year, based on all years discounted at municipal bond rate
General Inflation	2.5% per year
Salary Scale	3.0% per year
Salary M erit Scale	Total payroll increase is overall payroll growth
Annual Premium Increase Rate	Between 5% and 6.5% annually
Mortality Rates	RP 2000 male and female tables
Turnover Rates	As developed for the valuation of benefits under Oregon PERS, depending on YOS
Disability Rates	As developed for the valuation of benefits under Oregon PERS, age dependent
Retirement Rates	As developed for the valuation of benefits under Oregon PERS
Plan Enrollment	Current and future retirees are assumed to remain enrolled in the plans in which currently enrolled if any
Marital Status	70% of future retirees electing coverage are assumed to cover a spouse as well
Coverage of Eiligible Children	No impact of dependent children on the implicity subsidy is assumed

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate – The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current discount rate:

	1.0% Decrease		Curre	ent Trend Rate	1.0% Increase 7.5%		
	5.5% Graded		6.5%	Graded Down	Graded Down to		
	Dow n to 4.0%		to 5.0	%Trend Rates	6.0%		
Total OPEB Liability	\$	2,532,804	\$	2,835,789	\$	3,194,064	

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates – The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1% lower or 1% higher than the current healthcare cost trend rates:

	1% Decrease		Cur	rent Discount	1% Increase Rate	
	Rate 2.0%			Rate 3.0%	4.0%	
Total OPEB Liability	\$	3,046,980	\$	2,835,789	\$	2,640,031

OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources – For the year ended June 30, 2018, the District recognized OPEB expense of \$211,433. At June 30, 2018, the District reported no deferred outflows or inflows associated with the single employer defined benefit health care plan.

Note 10 - Post-Employment Benefits Other Than Pensions (OPEB) (continued)

Retirement Health Insurance Account (RHIA) -

Plan Description - As a member of Oregon Public Employees Retirement System (OPERS), the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other post-employment benefit plan administered by OPERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants after January 1, 2004.

OPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, PO box 23700, Tigard, OR 97281-3700.

Funding Policy - Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 dollars or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 dollars shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in PERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in PERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in a PERS-sponsored health plan. A surviving spouse or dependent of a deceased PERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from PERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Participating school districts are contractually required to contribute to RHIA at a rate assessed each year by OPERS, and the District currently contributes 0.49% of annual covered OPERF payroll and 0.10% of OPSRP payroll. The District contributed \$55,577 for the year ended June 30, 2018. The contribution rates in effect for the fiscal year ended June 30, 2018 for the OPEB program were: Tier1/Tier 2-0.50%, and OPSRP general service -0.43%.

Pension Plan Comprehensive Annual Financial Report (CAFR) -

Oregon PERS produces an independently audited CAFR which can be found at:

http://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx

Actuarial Valuation -

The actuarial valuation used for RHIA is identical to the actuarial valuation details related to the OPERS Plan disclosed in *Note 11 Pension and Retirement Plans* (excluding the Actuarial Methods and Assumptions cost of living adjustment assumption, which has been removed, and a retiree healthcare participation assumption of 38% for healthy retirees and 20% for disabled retirees has been used). The actuarial valuation details are the Actuarial Methods and Assumptions, Discount Rate, Assumed Asset Allocation, and the Investment Rate of Return.

Note 10 - Post-Employment Benefits Other Than Pensions (OPEB) (continued)

OPEB Liabilities/Assets, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB –

At June 30, 2018, the District reported \$47,893 for its proportionate share of the net OPEB asset. The net OPEB asset was measured as of June 30, 2017, and the total OPEB asset used to calculate the net OPEB asset was determined by an actuarial valuation as of December 31, 2015. The District's proportion of the net OPEB asset was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2018, the District's proportion was approximately 0.11476 percent.

For the year ended June 30, 2018, the District recognized a reduction of OPEB expense of \$80,323. The reduction of OPEB expense was generated during the measurement period primarily as a result of more than anticipated investment returns at the OPERS level. The \$80,323 was treated as a reduction of payroll related expense in the Statement of Activities and allocted to Instruction, Supporting Services, and Community Services using allocation percentages of 58%, 37% and 5%, respectively.

At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred C Reso		Deferred Inflows of Resources	
Difference between expected and actual experience	\$	-	\$	-
Changes of assumptions		-		-
Net difference between projected and actual earning on investments		-		22,181
Changes in proportionate share		-		966
Differences between employer contributions and employers proportionate				
share of system contributions		-		-
Contributions subsequent to measurement date		55,577		
Total	\$	55,577	\$	23,147

\$55,577 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as an increase to the net OPEB asset in the year ended June 30, 2018.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in pension expense as follows:

Year Ended	Deferred Outflow/(Inflow) of Resources			
June 30	(prior to p	oost-measurement		
	date	contributions)		
2019	\$	(5,903)		
2020		(5,903)		
2021		(5,795)		
2022		(5,546)		
2023		-		
Thereafter		-		
Total	\$	(23, 147)		

Note 10 - Post-Employment Benefits Other Than Pensions (OPEB) (continued)

<u>Sensitivity for the District's Proportionate Share of the Net OPEB Asset to Changes in Discount Rate –</u>

The following presents the District's proportionate share of the net OPEB asset calculated using the discount rate of 7.50 percent, as well as what the District's proportionate share of the net OPEB asset would be if it were calculated using a discount rate that is 1-percentage point lower (6.50 percent) or 1-percentage point higher (8.50 percent) than the current rate:

District's Net OPEB	1%	Decrease	Curre	nt Discount	1%	Increase
Asset/(Liability)		(6.50)	Rate (7.50%)			(8.50%)
Defined Benefit OPEB Plan	\$	(6,676)	\$	47,893	\$	94,307

The RHIA OPEB is unaffected by healthcare cost trends due to the benefit being limited to \$60 monthly payments toward Medicare companion insurance premiums.

Note 11 - Pension and Retirement Plans

Tax Sheltered Annuity Plan -

The District offers its employees a tax deferred annuity program established pursuant to Section 403(b) of the Internal Revenue Code (the Code), and deferred compensation program pursuant to Section 457 of the Internal Revenue Code. Contributions are made through salary reductions from participating employees up to the amounts specified in the Code. The District provides no matching component for employee contributions.

Early Retirement Stipend Pension Plan -

Plan Description - The District maintains a single-employer defined benefit pension early retirement supplemental plan for eligible Administrative. Classified. Confidential and Licensed employees of the District (not administered through a trust). For retirement eligibility the retiree must be receiving benefits from Oregon PERS. For Tier 1 or Tier 2 members they may retire earlier of age 55, or any age with 30 years of service. OPSRP members must be age 55 or older with five years of service. The program covers Administrative, Classified and Confidential staff that have been employed since July 1, 2003, and licensed staff prior to June 20, 2003. Additionally, eligible Administrative staff must have at least 15 years of experience, Classified staff 20 years of continuous experience, Confidential staff 10 years of continuous experience and Licensed staff 15 years of full-time experience with the district, or at least 10 years of full-time experience and be on Step 15 of the Licensed salary schedule. Upon reaching age 55 (and having the required number of years of experience prior to the specified eligibility date), an employee may elect early retirement. A stipend in lieu of medical insurance from the District for Administrative and Confidential staff equal to medical premium, Classified may elect a \$100 stipend in lieu of insurance benefit, and Licensed staff may elect to receive 2.65% of base licensed salary per month, which is allowed to inflate post-retirement. The stipend is paid for eight years or until the retiree is eligible for full Social Security Benefits, whichever comes first. There are no survivor benefits.

Funding Policy – The benefits from this program are fully paid by the District and, consequently, no contributions by employees are required. The District funds this benefit as it comes due and the amount paid by the District for the benefit for the period ended June 30, 2017 was \$340,872. There are no assets accumulated in a trust.

Note 11 - Pension and Retirement Plans (continued)

Employees Covered by Benefit Terms – At June 30, 2018, the following employees were covered by the stipend benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	34
Inactive employees entitled to but not yet receiving benefit payments	-
Active plan members	54
	88

Total Stipend Pension Liability – The districts total stipend pension liability of \$2,274,658 was measured as of June 30, 2018, and was determined by an actuarial valuation date as of July 1, 2016.

Actuarial Assumptions and Other Inputs – The total stipend pension liability in the actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Input	Assumption			
Actuarial Cost Method	Early age normal, level percent of salary			
Interest Rate Utilized for Discounting	3.0% per year, based on all years discounted at municipal bond rate			
General Inflation	2.5% per year			
Salary Scale	3.0% per year			
Salary M erit Scale	Total payroll increase is overall payroll growth			
Annual Premium Increase Rate	Between 5% and 6.5% annually			
Mortality Rates	RP 2000 male and female tables			
Turno ver Rates	As developed for the valuation of benefits under Oregon PERS, depending on YOS			
Disability Rates	As developed for the valuation of benefits under Oregon PERS, age dependent			
Retirement Rates	As developed for the valuation of benefits under Oregon PERS			
Plan Enrollment	Current and future retirees are assumed to remain enrolled in the plans in which currently enrolled if any			
Marital Status	70% of future retirees electing coverage are assumed to cover a spouse as well			
Coverage of Eiligible Children	No impact of dependent children on the implicity subsidy is assumed			

Sensitivity of the Total Stipend Pension Liability to Changes in the Discount Rate – The following presents the total stipend pension liability of the District, as well as what the District's total pension stipend liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current discount rate:

	1.0	% Decrease	ecrease Current Discount		1.0%	Increase Rate		
	F	Rate 2.0%		Rate 3.0%		Rate 3.0%		4.0%
Total OPEB Liability	\$	2,385,086	\$	2,274,658	\$	2,167,773		

Stipend Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources – For the year ended June 30, 2017, the District recognized stipend pension expense of \$131,786. At June 30, 2018, the District reported no deferred outflows or inflows associated with its stipend pension plan.

Note 11 - Pension and Retirement Plans (continued)

OPERS Plan -

Plan Description - Employees are provided pensions as participants under one or more plans currently available through Oregon Public Employees Retirement System (OPERS), a cost-sharing multiple-employer defined benefit plan in accordance with Oregon Revised Statutes Chapter 238, Chapter 23A, and Internal Revenue Service Code Section 401(a).

There are currently two programs within OPERS, with eligibility determined by the date of employment. Those employed prior to August 29, 2003 are OPERS Program members, and benefits are provided based on whether a member qualifies for Tier One or Tier Two described below. Those employed on or after August 29, 2003 are Oregon Public Service Retirement Plan (OPSRP) Program members. OPSRP is a hybrid retirement plan with two components: 1) the Pension Program (defined benefit; established and maintained as a tax-qualified governmental defined benefit plan), and 2) the Individual Account Program (IAP) (defined contribution; established and maintained as a tax-qualified governmental defined contribution plan).

The ORS Chapter 238 Defined Benefit Plan was closed to new members hired on or after August 29, 2003. In 1995, the Oregon Legislature created a second tier of benefits for those who became OPERS Program members after 1995 but before August 29, 2003. The second tier does not have the Tier One assumed earnings rate guarantee.

Beginning January 1, 2004, all employees who were active members of OPERS became members of the OPSRP IAP Program. OPERS plan member contributions (the employee contribution, whether made by the employee or "picked-up" by the employer) go into the IAP portion of OPSRP. OPERS plan members retain their existing OPERS accounts; however, member contributions after January 1, 2004 are deposited in the member's IAP, not into the member's OPERS account.

Plan Benefits - All benefits of the System are established by the legislature pursuant to Oregon Revised Statute (ORS) Chapter 238 and 238A.

Tier One/Tier Two Retirement Benefit (Chapter 238) -

Pension Benefits - The OPERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer. General Service employees may retire after reaching age 55. Tier One general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Tier Two members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan was closed to new members hired on or after August 29, 2003.

Note 11 - Pension and Retirement Plans (continued)

Death Benefits - Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met:

- Member was employed by a OPERS employer at the time of death,
- Member died within 120 days after termination of OPERS-covered employment,
- Member died as a result of injury sustained while employed in a OPERS-covered job, or
- Member was on an official leave of absence from a OPERS-covered job at the time of death.

Disability Benefits - A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45% of the member's salary determined as of the last full month of employment before the disability occurred.

Benefit Changes After Retirement – Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value of equity investments.

Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes (COLA). The COLA is capped at 2.0%.

OPSRP Pension Program (Chapter 238A) -

Pension Benefits - The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003. This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

General Service - 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

Death Benefits - Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.

Disability Benefits - A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

Benefit Changes After Retirement - Under ORS 238A.210, monthly benefits are adjusted annually through cost-of-living adjustment (COLA). The COLA is capped at 2.0%.

Note 11 - Pension and Retirement Plans (continued)

Contributions -

PERS' funding policy provides for periodic member and employer contributions at rates established by the Public Employees Retirement Board, subject to limits set in statute. The rates established for member and employer contributions were approved based on the recommendations of the System's third-party actuary.

The District's employer contributions for the year ended June 30, 2018 were \$1,240,309, excluding amounts to fund employer specific liabilities. The contribution rates in effect for the fiscal year ended June 30, 2018 for each pension program were: Tier1/Tier 2 – 14.72%, and OPSRP general service – 9.39%.

Pension Plan Comprehensive Annual Financial Report (CAFR) -

Oregon PERS produces an independently audited CAFR which can be found at:

http://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx

Actuarial Valuation -

The employer contribution rates effective July 1, 2015, through June 30, 2017, were set using the entry age normal actuarial cost method. Under this cost method, each active member's entry age present value of projected benefits is allocated over the member's service from their date of entry until their assumed date of exit, taking into consideration expected future compensation increases.

Actuarial Methods and Assumptions Used in Developing Total Pension Liability -

Valuation date December 31, 2015 Measurement date June 30, 2017

Measurement date Julie 30, 2017

Experience study 2014, published September 2015

Actuarial cost method Entry age normal

Actuarial assumptions:

Inflation rate 2.50 percent
Long-term expected rate of return1 7.50 percent
Discount rate 7.50 percent
Projected salary increases 3.50 percent

Cost of living adjustments (COLA) Blend of 2.00% COLA and graded COLA

(1.25%/0.15%) in accordance with Moro

decision; blend based on service.

Mortality Healthy retirees and beneficiaries:

RP-2000 Sex-distinct, generational per Scale BB, with collar adjustments and set-backs as

described in the valuation.

Active members:

Mortality rates are a percentage of healthy retiree rates that vary by group, as described in

the valuation.

Disabled retirees:

Mortality rates are a percentage (70% for males, 95% for females) of the RP-2000 Sex-distinct, generational per Scale BB, disabled mortality table.

Note 11 - Pension and Retirement Plans (continued)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2014 Experience Study which reviewed experience for the four-year period ending on December 31, 2014.

Discount Rate -

The discount rate used to measure the total pension liability was 7.5 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Assumed Asset Allocation -

Asset Class	Target Allocation
Cash Debt securities Public equity Private equity Real estate Alternative equity	0.00% 20.00% 37.50% 17.50% 12.50%
Opportunity portfolio	0.00%
Total	100.00%

Investment Rate of Return -

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2015 the OPERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

Note 11 - Pension and Retirement Plans (continued)

		Compounded
Asset Class	Target Allocation	Annual Return
Core fixed income	8.00%	4.00%
Short-term bonds	8.00%	3.61%

Assumed inflation - mean		2.50%

<u>Pension Liabilities/Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions -</u>

At June 30, 2018, the District reported \$14,876,779 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2015. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2018, the District's proportion was approximately 0.11036 percent.

For the year ended June 30, 2018, the District recognized pension expense of \$1,731,999. Pension expense was generated during the measurement period primarily as a result of less than anticipated investment returns at the OPERS level. The \$1,731,999 was treated as and increase of payroll related expense in the Statement of Activities and allocted to Instruction, Supporting Services, and Community Services using allocation percentages of 58%, 37% and 5%, respectively.

Note 11 - Pension and Retirement Plans (continued)

At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred Outflows of Resources		Deferred Inflows of Resources	
Difference between expected and actual experience	\$	719,447	\$	-	
Changes of assumptions		2,711,771		_	
Net difference between projected and actual earning on investments		153,266		-	
Changes in proportionate share		340,485		575,018	
Differences between employer contributions and employers proportionate					
share of system contributions		30,763		409,168	
Contributions subsequent to measurement date		1,240,309			
Total	\$	5,196,041	\$	984,186	

\$1,240,309 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a decrease to the net pension liability in the year ended June 30, 2018.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30	F prior to p	Outflow/(Inflow) of Resources cost-measurement contributions)
2019	\$	487,898
2020		1,686,967
2021		1,123,264
2022		(360,527)
2023		33,944
Thereafter		-
Total	\$	2,971,546

<u>Sensitivity for the District's Proportionate Share of the Net Pension Liability to Changes in Discount Rate –</u>

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.50 percent) or 1-percentage point higher (8.50 percent) than the current rate:

	19	% Decrease	Cur	rent Discount	19	% Increase	
District's Net Pension Liability	(6.50)		R	Rate (7.50%)		(8.50%)	
Defined Benefit Pension Plan	\$	25,352,747	\$	14,876,779	\$	6,116,929	

Note 11 - Pension and Retirement Plans (continued)

Changes in Assumptions -

A summary of key changes implemented since the December 31, 2015 valuation can be found in the 2014 Experience Study for the System, which can be found at:

http://www.oregon.gov/PERS/Documents/Financials/Actuarial/2015/Experience-Study.pdf

Defined Contribution Plan – Individual Account Program (IAP)

Pension Benefits - Participants in OPERS defined contribution pension plans also participate in their defined contribution plan. An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. All covered employees are required by State statute to contribute 6% of their salary to the plan. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies.

Upon retirement, a member of the OPSRP Individual Account Program (IAP) may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5, 10, 15, 20-year period or an anticipated life span option. Each distribution option has a \$200 minimum distribution limit.

Death Benefits - Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

Contributions - During 2018, the District, as an employee benefit, paid the employees portion of the contribution. For 2018, the District paid \$709,281 for this contribution.

Note 12 - Commitments

The District has a construction obligation for energy savings performance upgrades, the majority of which is at Talent and Phoenix Elementary schools. The original commitment contract is for \$5,557,021 with the entire amount remaining on the commitment. These upgrades will be paid for with the 2018 G.O. Bonds.

Note 13 - Contingencies

Amounts received or receivable from grantor agencies are subject to compliance audits by grantors or their representatives. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

The District, in the regular course of business, may be named as a defendant in various lawsuits. The likely outcome of these lawsuits, if any, is not presently determinable.

Note 14 - Current Vulnerability Due to Certain Concentrations

The District's operations are concentrated within Jackson County. In addition, substantially all the District's revenues for continuing operations are from federal, state, and local government agencies. In the normal course of operations, the District receives grant funds from various Federal and State agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

Note 15 - Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters for which the District carries commercial insurance. Worker's compensation insurance is also provided through a commercial carrier. There has been no significant reduction in insurance coverage from the prior year and the District has not been required to pay any settlements in excess of insurance coverage during the past five fiscal years ending June 30, 2018.

Note 16 - Tax Abatements

As of June 30, 2018, Jackson County provides tax abatements through Enterprise Zone program. For the fiscal year ended June 30, 2018, Phoenix-Talent School District did not have any abated property taxes under this program.

Note 17 - Subsequent Events

Management of the District has evaluated events and transactions occurring after June 30, 2018 through November 30, 2018, the date that the financial statements were available for issuance, for recognition and/or disclosure in the financial statements.

Changes in OPERS Pension Plan Provisions -

At its July 28, 2017 meeting, the PERS Board lowered its effective "assumed rate" from 7.5% to 7.2% effective, January 1, 2018. The assumed rate is the rate of investment return (including inflation) that the PERS Fund's regular account is expected to earn over the long term. Oregon Administrative Rule 459-007-0001(2) states that the assumed rate "means the actuarial assumed rate of return on investments as adopted by the Board for the most recent actuarial valuation."

The lowered rate is expected to increase the PERS net pension liability by an estimated \$2.0 to \$2.4 billion. Of this increase, the District's portion is estimated at \$2.1 to \$2.5 million.

JACKSON COUNTY SCHOOL DISTRICT NO. 4 SCHEDULE OF DISTRICT PROPORTIONATE SHARE OF THE NET PENSION ASSET/(LIABILITY) AND DISTRICT SCHEDULE OF CONTRIBUTIONS OREGON PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS) LAST 10 FISCAL YEARS ENDING JUNE 30 (For Years Information is Available)

Note - Changes of Benefit Terms and Assumptions

A summary of assumption changes implemented since the December 31, 2014 valuation are outlined briefly below. A comprehensive list of changes in methods and assumptions can be found in the 2014 Experience Study for the system, which was published on September 23, 2015, and can be found at: http://www.oregon.gov/PERS/Documents/Financials/Actuarial/2015/Experience-Study.pdf

Changes in Actuarial Method and Allocation Procedures:

General Service member weighting changed from 30% to 25% of proportional liability.

Changes in Economic Assumptions:

Inflation was lowered from 2.75% to 2.50%, and payroll growth was reduced from 3.75% to 3.50%. Long-term expected rate of return was reduced from 7.75% to 7.5%. Tier 1/Tier 2 administrative expense assumption of \$33 million per year for December 31, 2014 and December 31, 2015. Health care cost inflation rates increased from 5.90% to 7.00% with ultimate inflation rate decreasing from 4.70% to 4.40%. Disability mortality tables were updated using the RP2000 generational tables, whereas RP2000 static tables were previously used. Rates for disability, retirement from active status, and termination were adjusted.

Changes in Demographic Assumptions:

RP2000 Generational with Scale AA changed to RP2000 Generational with Scale BB for both Combined Active/Healthy and Disabled Annuitants with collar adjustments and set-backs

This schedule is presented to illustrate required supplementary information for a 10-year period. The District adopted GASB 68 during fiscal 2014, as a result, only five years of information is available.

INDEPENDENT AUDITOR'S REPORT REQUIRED BY OREGON STATE REGULATIONS

Board of Directors Jackson County School District No. 4 Phoenix-Talent, Oregon

Certified Public Accountants, LLP

We have audited the basic financial statements Jackson County School District No. 4, Oregon, (the District) as of and for the year ended June 30, 2018, and have issued our report thereon dated November 30, 2018. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-0000 through 162-10-0320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures but were not limited to the following:

- Deposit of public funds with financial institutions under ORS Chapter 295.
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required under ORS Chapter 294.
- Insurance and fidelity under bonds in force or required by law.
- Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing under ORS Chapters 279A, 279B, 279C.
- State school fund factors and calculation.

In connection with our audit, one finding came to our attention in relation to the State School Fund factors. When testing teacher experience, we noted two exceptions within a testing population of 19 teachers. More specifically, one sample reported an additional year of experience than what could be verified through the employee's personnel file and one sample reported one less year of experience than could be verified through the employee's personnel file. With the exception of the finding associated to the State School Fund factors, nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administration Rules 162-10-0000 through 162-10-0320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting or over compliance.

Restriction on Use

This report is intended solely for the information and use of the District's Board, Management of the District and the State of Oregon and is not intended to be and should not be used by anyone other than these parties.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Jackson County School District No. 4 Phoenix-Talent, Oregon

Certified Public Accountants, LLP

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Jackson County School District No. 4 (the District) as of and for the year ended June 30, 2018 and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 30, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of Directors Jackson County School District No. 4 Phoenix-Talent, Oregon

Report on Compliance for Each Major Federal Program

We have audited Jackson County School District No. 4's (the District) compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on the District's major federal program for the year ended June 30, 2018. The District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the District's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Major Program

In our opinion, the District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2018.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

JACKSON COUNTY SCHOOL DISTRICT NO. 4 NOTES TO SCHEDULE OF EXPENDITURE OF FEDERAL AWARDS Year Ended June 30, 2018

NOTE A - BASIS OF PRESENTATION:

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the District under programs of the federal government for the year ended June 30, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE C - INDIRECT COST RATE:

The District has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

NOTE D - SUBRECIPIENTS:

There were no awards passed through to subrecipients.

JACKSON COUNTY SCHOOL DISTRICT NO. 4 SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended June 30, 2018

SECTION I – SUMMARY OF AUDITOR'S RESULTS

Financial Statements

- 1. The auditor's report expresses an unmodified opinion on the basic financial statements of the District.
- 2. No significant deficiencies or material weaknesses relating to the audit of the financial statements are reported in the Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*.
- 3. No instances of noncompliance material to the basic financial statements of the District were disclosed during the audit.
- 4. No significant deficiencies or material weaknesses relating to the audit of the major federal award programs are reported in the Independent Auditor's Report on Compliance for Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance.
- 5. The Independent Auditor's Report on Compliance for Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance for the major federal award programs for the District expressed an unmodified opinion.
- 6. There were no audit findings that are required to be reported in accordance with the Uniform Guidance reported in this schedule.
- 7. The programs tested as major programs include:
 - U.S. Department of Education:

Child Nutrition Cluster

CFDA #'s 10.553, 10.555, 10.556, 10.559

- 8. The threshold for distinguishing Types A and B Programs was \$750,000.
- 9. The district qualified as a low-risk auditee under the criteria specified in the Uniform Guidance.

SECTION II - FINANCIAL STATEMENT FINDINGS

None

SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

None
